

PAUL R. HIBBING, PH.D.

**Postdoctoral Research Scholar
Children's Mercy Kansas City
Center for Children's Healthy Lifestyles & Nutrition**

2240 Kenwood Ave, Room 2M02.45 | Kansas City, MO 64108
816.302.3183 | prhibbing@cmh.edu

EDUCATION

Doctor of Philosophy (May 2020)

University of Tennessee, Knoxville

Major: Kinesiology and Sport Studies
Specialization: Exercise Physiology
Cognate: Statistics
Dissertation: Calibration and validation of gyroscope inclusive youth Sojourn models
Committee: Scott E. Crouter (Major Professor)
David R. Bassett Jr.
Dawn P. Coe
Haileab Hilafu

Master of Science (August 2016)

Iowa State University

Major: Kinesiology
Thesis: Estimation of physical activity intensity using triaxial ActiGraph accelerometers in youth populations: Impact of data type, attachment site, and modeling approach, including adaptations of the Sojourn method for varied use in youth
Committee: Gregory J. Welk (Major Professor)
Laura D. Ellingson
Philip M. Dixon

Bachelor of Science (August 2014)

Iowa State University

Major: Kinesiology and Health
Minors: German Language
Music Technology

PROFESSIONAL EXPERIENCE

Postdoctoral Training

Positions/Appointments

- Research Scholar..... 07/2020 – present
Children's Mercy Kansas City
Center for Children's Healthy Lifestyles & Nutrition (director Ann Davis)
Primary mentors: Jordan Carlson, Robin Shook

Trainings/Courses

- Physical Activity & Public Health09/14/2021 – 09/21/2021
Postgraduate Course on Research Directions and Strategies (director Russell Pate)
University of South Carolina
Arnold School of Public Health

Fee-for-Service Research Consultancies

- British Youth Physical Activity Measurement Study 07/2017 – 09/2017
Supervisors: Greg Welk (Iowa State University) and Stuart Fairclough (Edge Hill University)
Description: Managed activity monitor data from free-living youth
- Youth Physical Activity Measurement Study 01/2019 – 06/2019
Supervisor: Greg Welk (Iowa State University)
Description: Managed activity monitor data from free-living youth
- Gestational Weight Gain and Optimal Wellness Study 06/2020
Supervisor: Samantha Ehrlich (University of Tennessee, Knoxville)
Description: Performed logistic regression analyses

Graduate Research Assistantships

- Iowa State University 08/2014 – 07/2016
Department of Kinesiology
Physical Activity and Health Promotion Lab (director Greg Welk)
Funded by NIH R21CA188641 and NCI subcontract HHSN261201200028I (Westat)
- University of Tennessee, Knoxville 08/2016 – 05/2020
Department of Kinesiology, Recreation, and Sport Studies
Applied Physiology Lab (director Scott Crouter)
Funded by NIH R01HD083431

Other Research Positions

- Undergraduate Research Assistant 09/2013 – 08/2014
Iowa State University
Department of Kinesiology
Physical Activity and Health Promotion Lab (director Greg Welk)

- Summer Research Intern..... 05/2014 – 08/2014
Iowa State University
Department of Kinesiology
Neurophysiology Lab (director Elizabeth Stegemöller)

Research Mentorship

(● high school students | ○ undergraduate students)

Iowa State University

- **Darby Flatley, 2015-2016; remotely through 2017** (then Welk lab assistant; now physician assistant at Trouvaille Memory Care Suites)
- **Ayla Heder, 2015-2016** (then Welk lab assistant; now project manager at Primary Health Care, Inc)
- **Bailie Kies, 2015-2016** (then Welk lab assistant; now registered dietitian).

University of Tennessee, Knoxville

- **B. Jesse Clendenin, 2017-2019** (then Crouter lab assistant; now medical student at Lincoln Memorial University)
- **Brice Walkowski, 2018-2020** (then Crouter lab assistant; now pursuing medical school).

Children's Mercy Kansas City

- **Christine Ibeagi, 2021** (then summer research scholar in Shook lab; now senior at Missouri Southern State University)
- The following are my mentees in the [STAR 2.0](#) program: ●Lauryn Birmingham ●Tumusifu Ndagijimana ●Sara Sadeghi ●Nedra Seigfreid ●Shucayb Sheikhdan

Teaching Positions

(● undergraduate courses | ○ graduate courses)

Undergraduate Teaching Assistant (Iowa State University)

- BIOL 255L (Laboratory Section: Human Anatomy)Fall 2013

Graduate Teaching Assistant (University of Tennessee, Knoxville)

- KNS 414 (Laboratory Section: Fitness Testing and Exercise Prescription).....May Term 2017
- KNS 532 (Laboratory Section: Exercise Physiology).....Fall 2017, Fall 2019
- SOWK 665 (Advanced Quantitative Research Methods)Fall 2018

Guest Lecturer (University of Tennessee, Knoxville)

- “Current Research in the Applied Physiology Laboratory” 04/20/2017
KNS 350 (Physical Activity Epidemiology)
- “Physical Activity and Wellness” 09/13/2017
FYS 129 (Wellness: The Art and Science)
- “Cardiovascular Physiology I” 10/18/2017
KNS 532 (Exercise Physiology)
- “Cardiovascular Physiology II” 10/23/2017
KNS 532 (Exercise Physiology)
- “Assessing Energy Expenditure in Youth” 02/06/2020
KNS 365 (Pediatric Exercise Science)
- “Measuring Physical Activity in Youth” 03/05/2020
KNS 365 (Pediatric Exercise Science)

GRANT FUNDING

Current Research Support

1. Kenneth and Eva Smith Award (Children's Mercy Kansas City).....10/2021-09/2023
Role: Key Personnel (Primary Investigator: Shook)
Title: Fitbit Teens: A measurement error approach to estimating energy balance in free-living adolescents
Details: The goal of this study is to advance the assessment of energy balance in youth through measurement error modeling. I will assist in managing and processing data from wearable activity monitors.
Amount: \$50,000
2. STAR 2.0 mini grant (Children's Mercy Kansas City).....06/2022-07/2022
Role: Co-lead mentor with Carlson
Details: The purpose of the Summer Training in Academic Research (STAR) 2.0 program is to provide high school students from underrepresented backgrounds with a mentored research training experience during a six-week summer program, culminating in manuscript submission for peer review. Our project is focused on validating estimates of total sleep and sleep stages from a Garmin Vivofit 4 device against gold standard polysomnography collected during overnight sleep studies in the Children's Mercy Sleep Clinic.
Amount: \$2,000
3. R01DK129428 (National Institutes of Health).....05/2022-04/2026
Role: Consultant (Primary Investigators: Crouter and Ding)
Title: Use of accelerometer and gyroscope data to improve precision of estimates of physical activity type and energy expenditure in free-living adults
Details: The goal of this study is to pair multi-sensor physical activity monitoring with advanced machine learning to improve the precision of physical activity estimates. In response to PA-18-856: Diet and Physical Activity Assessment Methodology.
Amount: \$2,591,294

Applications Under Review

4. F32HL163951 (National Institutes of Health)..... *Resubmitted April 2022*
Role: Primary Investigator
Title: Occupational and non-occupational physical activity have differential associations with cardiovascular versus glycemic biomarkers in the Hispanic Community Health Study/Study of Latinos (HCHS/SOL)
Details: The goal of this project is to provide me training and experience related to research in the area of physical activity epidemiology, specifically related to occupational physical activity and cardiovascular/glycemic health in an at-risk and underrepresented population. In response to PA-21-048: Ruth L. Kirschstein National Research Service Award (NRSA) Individual Postdoctoral Fellowship (Parent F32).
Requested: \$147,556

Applications Not Funded

5. R01DK129662 (National Institutes of Health)..... *Resubmitted October 2020*
Role: Co-Investigator (Primary Investigator: Carlson)
Title: Scaling up Ecological Video Identification of Physical Activity (EVIP) for community-based research
Details: The goal of this study is to advance computer vision approaches for providing automated ecological physical activity assessment in parks, schools, and sports facilities. In response to PA-18-856: Diet and Physical Activity Assessment Methodology.
6. Collaborative Pilot Award (Internal; see details)..... *Submitted November 2020*
Role: Co-Investigator (Primary Investigators: Shook and Creasy)
Title: Fitbit Teens: A novel estimation of energy balance through the calibration of consumer devices in free-living adolescents
Details: The goal of this pilot study was to advance the assessment of energy balance in youth through the use of measurement error modeling. In response to a collaborative pilot program of Children's Mercy Kansas City and the Colorado Nutrition and Obesity Research Center.
7. R01DKxxxxxx (National Institutes of Health)..... *Submitted June 2021*
Role: Key personnel (Primary Investigator: Shook)
Title: A measurement error approach to estimating energy balance in free-living adults
Details: The goal of this study was to use measurement error modeling to improve utility of smart scales and smart watches for assessing energy intake via the intake balance method. In response to PA-18-857: Diet and Physical Activity Assessment Methodology.
8. R01CA255858 (National Institutes of Health)..... *Resubmitted July 2021*
Role: Consultant (Primary Investigator: Welk)
Title: Measurement error modeling to enhance calibration of the youth activity profile
Details: The goal of this study was to refine the utility of the Youth Activity Profile for national applications and surveillance. In response to PA-18-856: Diet and Physical Activity Assessment Methodology.
9. TL1 Award (Internal/National Institutes of Health)..... *Submitted January 2022*
Role: Primary Investigator/Trainee
Title: Occupational and non-occupational physical activity have differential associations with cardiovascular disease versus diabetes in the Hispanic Community Health Study/Study of Latinos (HCHS/SOL)
Details: The goal of this project was to provide me training and experience related to research in the area of population health, specifically prevention of cardiovascular and cardiometabolic disease in an at-risk and underrepresented population. In response to an internal RFA at the University of Kansas Medical Center, as part of the Frontiers Clinical and Translational Science Institute programming (UL1TR002366).

(2017) Estimating physical activity intensity in youth with accelerometers: A flexible suite of tools. *Medicine and Science in Sports and Exercise*. 49(5 Suppl 1), 475. Poster presented at the American College of Sports Medicine 64th annual meeting, Denver, CO.
7. Bai Y, Welk G, **Hibbing P**, & Mantis K. (2017) Which heart rate-based monitor is better: Apple Watch or Fitbit Charge HR? Slides presented at the 5th International Conference on Ambulatory Monitoring of Physical Activity and Movement, Bethesda, MD.
8. Toth L, **Hibbing P**, Park S, Morton A, Pittman W, Sarisaltik D, Kaplan A, Crouter S, & Bassett D. (2017) Criterion validity of consumer and research grade activity monitors during brief, intermittent walking. Slides presented at the 5th International Conference on Ambulatory Monitoring of Physical Activity and Movement, Bethesda, MD.
9. **Hibbing P**, LaMunion S, Bassett D, & Crouter S. (2017) Impact of inertial measurement unit on activity recognition using ActiGraph GT9X. Poster presented at the 5th International Conference on Ambulatory Monitoring of Physical Activity and Movement, Bethesda, MD.

10. Kaplan A, Toth L, **Hibbing P**, Morton A, Park S, Pittman W, Sarisaltik D, Bassett D, & Crouter S. (2017) Sources of error for wearable step counters. Poster presented at the 5th International Conference on Ambulatory Monitoring of Physical Activity and Movement, Bethesda, MD.
11. LaMunion S, **Hibbing P**, Bassett D, & Crouter S. (2017) Application of the ActiGraph GT9X IMU to estimate energy expenditure. Slides presented at the 5th International Conference on Ambulatory Monitoring of Physical Activity and Movement, Bethesda, MD.
12. Crouter S, **Hibbing P**, LaMunion SR, & Bassett DR. (2017) Use of the ActiGraph GT9X IMU to predict energy expenditure. Slides presented at the 5th International Conference on Ambulatory Monitoring of Physical Activity and Movement, Bethesda, MD.
13. Crouter SE, LaMunion SR, **Hibbing PR**, & Bassett DR. (2017) Use of a 2-Regression Model to Estimate Energy Expenditure using the ActiGraph GT9X IMU. Poster presented at the 4th International Conference on Recent Advances and Controversies in Measuring Energy Metabolism, Fribourg, Switzerland.
14. LaMunion SR, **Hibbing PR**, Bassett DR, & Crouter SE. (2017) Use of the ActiGraph GT9X Inertial Measurement Unit to Predict Energy Expenditure Using Artificial Neural Networks. Slides presented at the 4th International Conference on Recent Advances and Controversies in Measuring Energy Metabolism, Fribourg, Switzerland.
15. Kaplan AS, LaMunion SR, **Hibbing PR**, & Crouter SE. (2018) Use of consumer monitors for estimating energy expenditure in youth. *Medicine and Science in Sports and Exercise*. 50(5 Suppl 1), 262. Slides presented at the American College of Sports Medicine 65th annual meeting, Minneapolis, MN.
16. LaMunion SR, **Hibbing PR**, Kaplan AS, & Crouter SE. (2018) Physical activity category classification using the ActiGraph GT9X in youth. *Medicine and Science in Sports and Exercise*. 50(5 Suppl 1), 295. Poster presented at the American College of Sports Medicine 65th annual meeting, Minneapolis, MN.
17. **Hibbing PR**, Bassett DR, & Crouter SE. (2018) Modifying accelerometer cut-points affects criterion validity in free-living youth and adults. *Medicine and Science in Sports and Exercise*. 50(5 Suppl 1), 298. Poster presented at the American College of Sports Medicine 65th annual meeting, Minneapolis, MN.
18. Christian D, Saint-Maurice PF, **Hibbing P**, Noonan RJ, Boddy LM, Welk GJ, & Fairclough SJ. (2018) Calibration of the UK Youth Activity Profile. *Journal of Physical Activity and Health*. 15(10), S39. Slides presented at the 7th International Society for Physical Activity and Health Congress, London, England.
19. Crouter SE, LaMunion SR, **Hibbing PR**, Kaplan AS, Quarantillo ME, & Bassett DR. (2019) Accuracy of the Cosmed K5 portable metabolic system. *Medicine and Science in Sports and Exercise*. 51(6 suppl 1), 147. Slides presented at the American College of Sports Medicine 66th annual meeting, Orlando, FL.
20. Lamoureux NR, **Hibbing PR**, Matthews CE, & Welk GJ. (2019) Temporal relationships between the Act24 and a monitor-based method for estimating energy expenditure over a 24 hour period. *Medicine and Science in Sports and Exercise*. 51(6 suppl 1), 373. Poster presented at the American College of Sports Medicine 66th annual meeting, Orlando, FL.

21. **Hibbing PR** & Crouter SE. (2019) Resting energy expenditure and metabolic equivalents in youth: Impact of inconsistent operational definitions. *Medicine and Science in Sports and Exercise*. 51(6 suppl 1), 818-819. Poster presented at the American College of Sports Medicine 66th annual meeting, Orlando, FL.
22. **Hibbing PR**, LaMunion SR, Hilafu H, & Crouter SE. (2019) Evaluating the performance of bout detection algorithms for wearable sensors: The transition pairing method. Slides presented at the 6th International Conference on Ambulatory Monitoring of Physical Activity and Movement, Maastricht, The Netherlands.
23. Crouter SE, Clendenin BJ, **Hibbing PR**, & LaMunion SR. (2019) Validity of consumer monitors for estimating steps in youth. Slides presented at the 6th International Conference on Ambulatory Monitoring of Physical Activity and Movement, Maastricht, The Netherlands.
24. Ehrlich SF, Hedderson MM, Brown SD, Crouter SE, **Hibbing PR**, Feng J, Tsai AL, & Ferrara A. (2020) Objectively measured physical activity during the first trimester and glucose tolerance at 24-28 weeks gestation. *Medicine and Science in Sports and Exercise*. 52(7S), 100. Poster accepted for the American College of Sports Medicine 67th annual meeting (cancelled due to COVID-19 pandemic).
25. Hukka MK, LaMunion SR, **Hibbing PR**, & Crouter SE. (2020) Generational differences of consumer wearable devices for estimating physical activity outcomes. *Medicine and Science in Sports and Exercise*. 52(7S), 519. Rapid fire poster accepted for the American College of Sports Medicine 67th annual meeting (cancelled due to COVID-19 pandemic).
26. **Hibbing PR** & Crouter SE. (2020) Dynamic segmentation of youth accelerometer data by Sojourn and change point detection methods. *Medicine and Science in Sports and Exercise*. 52(7S), 824-825. Thematic poster accepted for the American College of Sports Medicine 67th annual meeting (cancelled due to COVID-19 pandemic).
27. Ehrlich SF, Hedderson MM, Brown SD, Crouter SE, **Hibbing P**, Feng J, Tsai AL, & Ferrara A. (2020) Objectively measured and self-reported physical activity in the first trimester of pregnancy, glucose tolerance, and gestational diabetes in women with overweight/obesity. *Diabetes*. 69(suppl 1) 1343-P. doi: 10.2337/db20-1343-P. Poster presented at the American Diabetes Association 2020 80th Scientific Sessions (held virtually due to COVID-19 pandemic).
28. Forseth B, Moon M, Singh M, Steel C, Ortega A, **Hibbing P**, Miller B, Miller M, Calvert H, Davis AM, & Carlson JA. (2021). Acceptability and impact of a remote classroom- and family-based physical activity interventions during the COVID-19 pandemic. Slides presented at the Active Living Conference (held virtually due to COVID-19 pandemic) of the Physical Activity Policy Research and Evaluation Network.
29. **Hibbing PR**, Carlson JA, Simon SL, Melanson EL, & Creasy SA. (2021) Convergent validity of Actiwatch and activPAL for assessing time in bed. *Journal for the Measurement of Physical Behaviour*. 4(S1), S20-S21. Virtual poster presented at the 8th International Conference on Ambulatory Monitoring of Physical Activity and Movement (held virtually due to COVID-19 pandemic).

Symposia

1. **Hibbing PR.** (2019) Accessing and using data through the FLASH GitHub repository. Presented in the symposium *Advancing collaborative activity monitor research using open-source tools* with co-presenters Greg Welk (chair) and Charles Matthews. 6th International Conference on Ambulatory Monitoring of Physical Activity and Movement, Maastricht, The Netherlands.

Regional/Institutional Presentations

1. **Hibbing P** & Devick R. (2014) The validity of an online tool for the assessment of physical activity behaviors in youth. Slides presented at the 8th Symposium on Undergraduate Research and Creative Expression, Ames, IA.
2. **Hibbing PR**, Bassett DR, & Crouter SE. (2018) Modifying accelerometer cut-points affects criterion validity in free-living youth and adults. Poster presented at the 46th annual meeting of the Southeast Chapter of the American College of Sports Medicine, Chattanooga, TN.
3. LaMunion SR, **Hibbing PR**, Kaplan AS, Bassett DR, & Crouter SE. (2018) Predicting energy expenditure with the ActiGraph GT9X IMU using artificial neural networks. Poster presented at the 46th annual meeting of the Southeast Chapter of the American College of Sports Medicine, Chattanooga, TN.
4. Kaplan AS, LaMunion SR, **Hibbing PR**, Bassett DR, & Crouter SE. (2018) Activity classification with the ActiGraph GT9X IMU using artificial neural networks. Poster presented at the 46th annual meeting of the Southeast Chapter of the American College of Sports Medicine, Chattanooga, TN.
5. Park S, Toth LP, **Hibbing PR**, Springer CM, Kaplan AS, Feyerabend MD, Crouter SE, & Bassett DR. (2018) Dominant vs non-dominant wear: A comparison of steps per day. Poster presented at the 46th annual meeting of the Southeast Chapter of the American College of Sports Medicine, Chattanooga, TN.
6. Kaplan AS, LaMunion SR, **Hibbing PR**, Bassett DR, & Crouter SE. (2018) Use of two-regression models to predict energy expenditure using wrist-worn GENEActivs in youth. Slides presented at the 46th annual meeting of the Midwest Chapter of the American College of Sports Medicine, Grand Rapids, MI.
7. **Hibbing PR** & Crouter SE. (2019) Resting energy expenditure and metabolic equivalents in youth: Impact of inconsistent operational definitions. Poster presented at the 47th annual meeting of the Southeast Chapter of the American College of Sports Medicine, Greenville, SC.
8. Clendenin BJ, **Hibbing PR**, LaMunion SR, & Crouter SE. (2019) Criterion validity of ActiGraph GT9X step predictions in youth. Slides presented at the 47th annual meeting of the Southeast Chapter of the American College of Sports Medicine, Greenville, SC.
9. Hukka MK, LaMunion SR, **Hibbing PR**, & Crouter SE. (2020) Generational differences of consumer wearable devices for estimating physical activity outcomes. Thematic poster presented at the 48th annual meeting of the Southeast Chapter of the American College of Sports Medicine, Jacksonville, FL.
10. Rand BG, Ferrara A, **Hibbing PR**, Hedderson MM, Brown SD, Badon SE, Crouter SE, & Ehrlich SF. (2021) The association of physical activity with lipid levels in pregnant women with overweight and obesity. Poster presented at the 49th annual meeting of the Southeast Chapter of the American College of Sports Medicine, held online due to COVID-19 pandemic.

11. Posson P, **Hibbing PR**, & Shook R. (2021) Resting energy expenditure equations have lower validity for overweight and obese versus healthy weight adolescents. Poster presented at the 6th annual Research at Children's Mercy Month Poster Session, Kansas City, MO.

SOFTWARE PACKAGES

Comprehensive R Archive Network (CRAN)

1. **Paul R. Hibbing** (2018). TwoRegression: Process Data from Wearable Research Devices Using Two-Regression Algorithms. R package version 0.1.2. URL: <https://cran.r-project.org/package=TwoRegression>.
2. **Paul R. Hibbing** (2018). AGread: Read Data Files from ActiGraph Monitors. R package version 1.1.1. <https://cran.r-project.org/package=AGread>.

*Note: As of April 2022, CRAN has archived this package because an upstream dependency is no longer supported. You can still find AGread on GitHub (<https://github.com/paulhibbing/AGread>).
3. **Paul R. Hibbing** (2018). Observation: Collect and Process Physical Activity Direct Observation Data. R package version 0.2.0. URL: <https://cran.r-project.org/package=Observation>.
4. **Paul R. Hibbing** (2019). PAutilities: Streamline physical activity research. R package version 1.0.1. URL: <https://cran.r-project.org/package=PAutilities>.
5. **Paul R. Hibbing** & Kate Lyden (2019). Sojourn.Data: Supporting Objects for Sojourn Accelerometer Methods. R package version 0.3.0. URL: <https://cran.r-project.org/package=Sojourn.Data>.
6. **Paul R. Hibbing**, Kate Lyden, & Isaac J. Schwabacher (2019). Sojourn: Apply Sojourn methods for processing ActiGraph accelerometer data. R package version 1.1.0. URL: <https://cran.r-project.org/package=Sojourn>.

GitHub

1. PAHP Lab (2020). FLASH: Free Living Activity Study for Health. R package version 0.1.1.9000. URL: <https://github.com/PAHPLabResearch/FLASH>. Access available by filling out the form at https://iastate.qualtrics.com/jfe/form/SV_be0mbBZOHMpeiX3.
2. **Paul R. Hibbing** (2022). PBpatterns: Analyze patterns of physical behavior. R package version 0.3.1.9000. URL: <https://github.com/paulhibbing/PBpatterns>.
3. **Paul R. Hibbing** (2022). daytime: Operate on time variables for physical behavior research. R package version 0.3.0.9000. URL: <https://github.com/paulhibbing/daytime>.
4. PAHP Lab (2022). ACT24: R Interface for the Activities Completed over Time in 24 Hours instrument. Under development. URL: <https://github.com/PAHPLabResearch/ACT24>.

PROFESSIONAL SOCIETIES

American College of Sports Medicine.....	02/2016 – present
International Society for the Measurement of Physical Behaviour.....	03/2017 – present
International Society of Behavioral Nutrition and Physical Activity	06/2021 – present
American College of Sports Medicine, Southeast Regional Chapter	01/2018 – 12/2020

HONORS & AWARDS

Iowa State University

Dean's list.....	(College of Human Sciences, Fall '10 – Spring '14*)
Dean's Scholarship.....	(College of Human Sciences, '10-'11 academic year; \$1000)
Academic Recognition Award	('10-'11 academic year; \$1250)
Academic Recognition Award (Renewal).....	(Fall '11; \$625*)
Barbara E. Forker Leadership Award	(Department of Kinesiology, 2014)
Top 20 Graduating Senior Scholar	(Department of Kinesiology, 2014)
Graduate Magna Cum Laude.....	(2014)
Outstanding Master's Student Award	(Department of Kinesiology, 2016)
AKA [†] Master's Scholar Award (institutional winner)	(Department of Kinesiology, 2016)

University of Tennessee, Knoxville

Chancellor's Fellowship.....	('16-'17 academic year; \$10,000)
Chancellor's Fellowship (Renewal)	('17-'18 academic year; \$10,000)
Chancellor's Fellowship (Renewal)	('18-'19 academic year; \$10,000)
Shipley-Swann Graduate Fellowship	('18-'19 academic year; \$5000)
Andy Kozar Graduate Research Scholarship Award	(KRSS [†] , 2019; \$1000)
Chancellor's Fellowship (Renewal)	('19-'20 academic year; \$10,000)
Shipley-Swann Graduate Fellowship	('19-'20 academic year; \$5000)
Extraordinary Professional Promise Citation	(CEHHS [†] , 2020)
Edward K. Capen Award.....	(KRSS [†] , 2020; \$200)
Andy Kozar Graduate Research Scholarship Award	(KRSS [†] , 2020; \$1000)
AKA [†] Doctoral Scholar Award (institutional winner)	(KRSS [†] , 2020)
Helen B. Watson Faculty/Student Award for Outstanding Doct. Dissertation ...	(CEHHS [†] , 2020; \$375)

*No classes taken Spring '12

[†]AKA- American Kinesiology Association; KRSS- department of Kinesiology, Recreation, and Sport Studies;
CEHHS- College of Education, Health, and Human Sciences
